

Press Release

August 17, 2009 12:30pm Coarsegold, CA – Cows In Fresno River

The Madera County Environmental Health Department is coordinating with local and state agencies to determine appropriate methods of remediation of the cows located in the Fresno River.

Preliminary investigations have indicated that none of the involved animals appear to suffer any disease or cause immediate concern for the health & safety of the surrounding properties or groundwater. Further information will be provided as the investigation progresses.
